

Studies identified through database
searching on clinicaltrials.gov
(n = 90)

Studies screened
(n = 90)

Studies excluded from retrieval*:

Not double-blinded (n = 29)
Not FDA-approved drug/dose/route (n = 19)
Not randomized (n = 16)
Without luminal Crohn's (CDAI 220-450) at baseline (n = 11)
Not induction trials (n = 10)
Without CDAI measurement at week 6 or 8 (n = 5)
Without stable dose of active drug (n = 2)
Not in adults (n = 1)

Studies sought
(n = 16)

Studies retrieved
(n = 15)

Studies retrieved but excluded from analysis:

Without CDAI measurement at week 6 (n = 1)

Total studies included in review (n = 15)

- Placebo-controlled, Week 6 (n = 9)
- Not placebo-controlled, Week 6 (n = 6)
